The Animalfish Are Swimming Into Town!

Meet the Animalfish in this fishy new coloring book featuring twenty-six of the world's wonderful watery creatures.

What's in a name? Find out with ANIMALFISH ALPHABET, a new alphabet coloring book written by Maggie Daniel Caldwell and illustrated by Sara Birns. ANIMALFISH ALPHABET uniquely features a complete A to Z of fish named after animals—from alligatorfish to zebrafish. Featuring fun facts bringing each Animalfish to life and whimsical illustrations depicting each Animalfish in its natural habitat, ANIMALFISH ALPHABET helps children of all ages discover a little bit more about the natural world we live in.

Because the Animalfish depend on fresh, clean water to survive, a portion of the proceeds from the sale of each book is being donated to organizations working to protect the Earth's water from pollution.

ANIMALFISH ALPHABET is the first publication from Aptos Multimedia, a local small business specializing in creative content, distribution, and management.
